♀ 3450 Burnley Drive, West Lafayette, IN, United States �(520)-302-1785

#### EDUCATION

# William Henry Harrison High School, Graduated Class of 2023 Valedictorian, Distinguished Honor Roll (4.0 GPA) Aug 2019 - June 2023

- AP Computer Science A (5), AP Biology (5), AP Chemistry (5), AP Physics C Mechanics (5), AP Physics C Electricity and Magnetism (5), AP Calculus BC (5), AP Calculus AB Subscore (5), AP Statistics (5), AP Physics AB (5)
- SAT (1570)

# Purdue University (nondegree)

# Jun 2020 - Aug 2020, Aug 2022 - May 2024

- Took CS 251 Data Structures and Algorithms (A), MA 265 Linear Algebra (A), CS 240 Programming in C (A+), MA 366 Ordinary Differential Equations Honors (A), CS 352 Compilers (A), CS 252 Systems Programming (B+), STAT 512 Applied Linear Regression (A+), CS 373 Data Mining and Machine Learning (A), CS 354 Operating Systems (A+), CS 527 Software Security (A), and CS 526 Information Security (A)
- Sat in for CS 180 Intro to Computer Science, CS 290 Competitive Programming I and II

# University of Texas at Austin

• Taking C S 314H Honors, HIS 315 K U.S. History, M 362 K Probability I, UGS 303 Tsars and Mystics, and RTF 303C Intro Media/Ent Industries

# EXTRACURRICULARS

#### Research

- Improving Deep Learning model security, namely, securing Neural Networks used in critical applications such as auto-driving (*Jun 2021- Jun 2022*)
- Improving Smart Contract security (NOTE: Smart Contracts are virtual business applications with a recent explosive growth due to the inventions of blockchain, crypto-currency, and Virtual Reality; Smart Contract attacks have costed **\$300 million** in the 2nd Quarter of 2023) (*Apr 2021-present*)

# Programming

• USACO (Aug 2018 - Mar 2022), High School Competitive Programming (Aug 2021 - Mar 2023)

#### Mathematics

• Indiana Math League (*Aug 2019 - May 2022*), Mathcounts (*Dec 2017 - Mar 2019*), AMC (*Nov 2017 - May 2022*), AIME (*Feb 2019 - May 2022*), Academic Super Bowl Math (*Jan 2021 - May 2022*)

#### Science

• Academic Super Bowl Science (Jan 2022 - May 2022), National Science Bowl (Jan 2022 - May 2023)

# Athletics

• High School Track Junior Varsity, Varsity (*Nov 2020 - May 2022*), High School Cross-Country Varsity (*Jun 2022 - Nov 2022*), High School Soccer Junior Varsity (*Jun 2020 - Oct 2020*)

Others – National Honors Society (Aug 2022 - May 2023)

# **RESEARCH EXPERIENCE**

Improving Deep Learning model security by improving model robustness against adversary attack (supervised<br/>by Prof. Shiqing Ma from Rutgers University CS)Jun 2021- Jun 2022

(Aug 2021 - Mar 2023)

#### Aug 2024 - present

(Jan 2021 - present)

- Studied Deep Learning (DL) image recognition models and various training methods of these models to correctly identify images along with malicious small modifications that can be applied so that images are miss-classified, namely, *adversarial attack*.
- Proposed a new training method by changing *batch normalization* to improve model accuracy (i.e., how accurate a model is in recognizing images) and robustness against adversarial attack. Batch normalization is a method used in DL training to accelerate convergence. However, it causes a few confoundings and degrades model robustness.
- Achieved **0.94 model accuracy** and **0.81 robustness** against adversarial attack whereas the state-of-the-art yields 0.88 model accuracy and 0.47 robustness.
- Published a first-author research paper that received the Best Student Paper Award on the 34th ICTAI conference.

#### **Improving Smart Contract security**

#### Apr 2021 - Present

- Learned blockchains, crypto-currency, Smart Contracts (SC), Ethereum (an SC deployment environment powered by blockchain), Solidity (a programming language for SC), and SC attack and defense
- Studied and summarized **500+ real-world smart contract security vulnerabilities** in 2021-2022, and proposed a new categorization of these issues along with typical symptoms and remedies. The study has received over **1300 stars on Github**.
- Applied my findings to real-world Smart Contracts to find security vulnerabilities and **found 25 critical bugs** that could endanger over 33.4 million dollars.
- Responsibly reported these bugs to their developers and helped fixing them before any exploitation by real attackers.
- Efforts were rewarded with an **accumulated personal bounty of \$52,660**, and recognized by rising auditing company PwnedNoMore through Twitter
- Invited for an interview by Code4rena, a premier security vendor for smart contracts
- Invited for a **\$5000 internship** by PwnedNoMore to audit a private smart contract
- **Published a co-first-author research paper** on summarizing all the Smart Contract vulnerablities and attacks in 2021-2022.
- Published a second-author research paper extending the previous paper through the use of existing tools.

# Developing an automated Smart Contract security tool (solo project)

#### (May 2023 - Aug 2023)

- Developed a Smart Contract security tool which utilizes refinement types on solidity variables to detect vulnerabilities that arise from accounting errors. The tool can catch 29 out of the 33 accounting type bugs in the benchmark, greatly outperforming current state-of-the-art tools.
- Used the tool to find 6 zero-day vulnerabilities and earned a combined bounty of more than \$10,000
- Published a single-author research paper about the tool in the best research venue in the area of Software Engineering ICSE.
- Earned the ACM Reusable and Available Badges for the Artifact Evaluation
- Earned the ACM SIGSOFT Distinguished Paper Award, only given to 14 of the 1,000+ paper submissions.

# PEER- REVIEWED PUBLICATIONS

Slides, Papers, and Video Presentations can be found here

- 1. Brian Zhang, Shiqing Ma, Achieving Both Model Accuracy and Robustness by Adversarial Training with Batch Norm Shaping, The 34th IEEE International Conference on Tools with Artificial Intelligence (ICTAI 2022) (published and presented on October 31 2022 virtually, Best Student Paper Award)
- Zhuo Zhang, Brian Zhang (Co-first), Wen Xu, Zhiqiang Lin, A Systematic Study of Recent Smart Contract Vulnerabilities, Crypto Economics Security Conference (CESEC 2022) (accepted and presented on November 1 2022 at UC Berkeley)

- **3.** Zhuo Zhang, Brian Zhang, Wen Xu, Zhiqiang Lin, *Demystifying Exploitable Bugs in Smart Contracts*, *International Conference on Software Engineering (ICSE 2023)* (published and presented on May 23 2023 in Melbourne, Australia)
- 4. Brian Zhang, Towards Finding Accounting Errors in Smart Contracts, International Conference on Software Engineering (ICSE 2024) (accepted presented on April 19th 2024 in Lisbon, Portugal, ACM SIGSOFT Distinguished Paper Award), tool available at https://github.com/NioTheFirst/ScType/tree/ICSE24Artifact

# INTERNATIONAL CONFERENCE PRESENTATIONS

- 1. Achieving Both Model Accuracy and Robustness by Adversarial Training with Batch Norm Shaping, The 34th IEEE International Conference on Tools with Artificial Intelligence (ICTAI 2022), October 31st 2022 (Virtual)
- **2.** A Systematic Study of Recent Smart Contract Vulnerabilities, Crypto Economics Security Conference (CESC 2022), November 1th 2022, UC Berkeley, Oakland, CA
- **3.** Demystifying Exploitable Bugs in Smart Contracts, The 45th International Conference on Software Engineering (ICSE 2023), May 17th 2023, Melbourne, Australia
- **4.** Towards Finding Accounting Errors in Smart Contracts, The 46th International Conference on Software Engineering (ICSE 2024), April 19th 2024, Lisbon, Portugal

#### AWARDS

| 1.  | Turing Scholar at University of Texas at Austin   | Aug 2024             |
|-----|---|----------------------|
| 2.  | ACM SIGSOFT Distinguished Paper Award (out of 1000+ submissions world-wide)   | Feb 27th 2024        |
| 3.  | ICTAI'22 Best Student Paper Award (out of 747 submissions world-wide)   | Nov 3rd 2022         |
| 4.  | Found 25 Critical Security Vulnerabilites in Real World Smart Contracts,  | Apr-Aug 2022         |
|     | • Rewarded with an overall bounty of over \$52,660, preventing \$33.4 million from be recognized and fixed by developers before exploitation by malicious hackers | ing stolen; all bugs |
| 5.  | First place in the 4th round of Code4rena Smart Contract Audit Contest in July  | Jul 2022             |
|     | • Code4rena is the most prestigious Smart Contract Audit contest in which industry bounty for auditors to find vulnerabilities in their real-world products       | provides substantial |
|     | • Out of 209 active teams world-wide, awarded \$7659.99   |                      |
| 6.  | First place in the Code4rena Smart Contract Audit contest on ENS in August  | Aug 2022             |
|     | • Out of 197 active teams world-wide, awarded \$18,700  |                      |
| 7.  | Tenth place solo audit in Code4rena Smart Contract Audit contest on Tapioca in Octob  | Der Oct 2023         |
|     | • Out of 134 contributing teams, awarded \$6386.18  |                      |
| 8.  | Valedictorian   | May 2023             |
| 9.  | USACO Platinum Qualifier (one of the 322 nation-wide in 2022-2023)  | Dec 2022             |
| 10. | USACO Gold Qualifier  | Dec 2019             |
| 11. | USACO Silver Qualifier  | Dec 2018             |
| 12. | U.S. Presidential Scholarship Candidate   | Feb 2023             |
| 13. | National Merit Finalist   | Apr 2023             |
|     | • Winner of the \$2,500 award that was further selected from the finalists through applicat   | ion                  |
| 14. | Academic Super Bowl Science Indiana State 1st place   | May 2022             |
| 15. | National Science Bowl Indiana Regional 2nd place  | Feb 2022             |
| 16. | Academic Super Bowl Math Indiana State 2nd place  | May 2022             |
| 17. | AIME Qualifier 201  | 9, 2020, 2021, 2022  |

| 18. Mathcounts Indiana State 8th place Individual, 6th place Team   | Mar 2019                     |  |
|---|------------------------------|--|
| 19. Mathcounts Chapter 2nd place Individual, 2nd place Countdown, 2nd place Tea   | m Dec 2018, Dec 2019         |  |
| 20. Mathcounts Chapter 2nd place Team Coach   | Dec 2020                     |  |
| 21. ISSMA (Piano) County Solo Gold, State Solo Silver   | Mar 2019                     |  |
| 22. ISSMA (Brass Quintuplet) County Ensemble Gold   | Mar 2019                     |  |
| 23. Purdue Half-Marathon 76th place overall out of 900+ total runners   | Oct 2021                     |  |
| LUNTEER EXPERIENCE  |                              |  |
| 1. Mathcounts CoachAug 2019 - Mar   | ur 2020, June 2024 - present |  |
| <ul> <li>Coached the Mathcounts Team for Battleground Middle School, with 1 memb<br/>2020 Mathcounts National Individual Competition</li> </ul> | er placed the 55th at the    |  |
| 2. High School Competitive Programming Club Founder and Coach   | Sep 2021 - Apr 2022          |  |
| <ul> <li>Coached students on programming at a competitive stage, 8 members had qual<br/>members had qualified for USACO Gold</li> </ul>         | ified for USACO Silver, 3    |  |
| <ul> <li>Encouraged participation of students from minority groups</li> </ul>   |                              |  |
| 3. NHS Volunteer  | Aug 2022 - May 2023          |  |
|   | Aug 2022 - Dec 2022          |  |

• Raised awareness on auditing and the dangers of cryptocurrency by encouraging students of both genders to participate in the competitions

#### SKILLS

Java, Python, C, C++, Bash, ARM, Tensorflow, Pytorch, Solidity, Ethereum, Linux, Overleaf, Latex, Typescript, and Github

#### HOBBIES

Running, Piano, Scuba diving, and Soccer
